Guide to Authors

The focus of *The NEACT Journal* is current advances in chemistry, chemistry education, and chemistry with a New England regional flavor. Articles should be directed to a relatively wide range of reader interests and backgrounds. Articles and artwork or cartoons from students that meet these criteria are also welcome. Manuscripts, preferably 2 to 6 pages of single spaced type, must be submitted to the Editor (1) in electronic version sent by e-mail or mailed on a CD or 3½ inch floppy; specify the name and version of the software used and whether the material was prepared on a Mac or PC. (2) Where figures may not be clear, send a paper version for which all figures, art work and graphs must be camera ready (line art must be black and sharp). Articles can be e-mailed to the editor (see 2 e-mail addresses above). Regular mail should go to Judith A. Kelley, *NEACT Journal* Editor, 15 Lois Lane, Lexington, MA 02420-4410. Manuscripts for a column should be submitted to the Column Editor; see columns in this issue for contact information. All illustrations must be original or have the permission of the owner/copyright holder. Ideas for cover art are appreciated. References should be typed according to the *ACS Style Guide*, see articles herein. **No manuscript should be submitted which has been published elsewhere or is under consideration for another journal. Copy more than thirty words in length or figures which have been published elsewhere should not be submitted without your obtaining written permission from the publisher.** If you need additional information, please contact the Editor, 781-862-5469 or Judith_Kelley@uml.edu.
